MICROSOLID SPLITS INTO TWO REGIONALLY FOCUSED COMPANIES: DASI SOLUTIONS AND 3DVISION TECHNOLOGIES

The Great Lakes region's number-one SolidWorks VAR for three consecutive years divides into two companies to get closer to customers

Cincinnati, OH. – September 3, 2002 – Microsolid Solutions, Inc. announces that it will split into two regionally focused companies to better serve its respective customers in the Great Lakes region. The newly formed Ohio-based company will operate under the name 3DVision Technologies Corp. and will be headquartered in the Cincinnati area with regional training centers in Louisville, KY, as well as Dayton and Columbus, OH. Todd Majeski, co-founder of Microsolid Solutions, will serve as the president of 3DVision Technologies Corp.

The newly formed Michigan-based company will operate under the name DASI Solutions, L.L.C., and will be headquartered in the Pontiac area with regional training facilities in Kalamazoo, Port Huron, and Grand Rapids, MI. David Darbyshire, co-founder of Microsolid Solutions, will serve as president of DASI Solutions, L.L.C.

“Our years of success in the SolidWorks reseller channel have resulted in tremendous growth for Microsolid over the past seven years” says Todd Majeski, president of Microsolid. “The principals of Microsolid, Richard and David Darbyshire and myself, all feel that we can better serve the needs of our customers by focusing our efforts on a smaller regional scale. This transition will be seamless for our existing customers since they will still be working with the same people at the same facilities.”

Microsolid web site (<http://www.microsolid.com>) will be maintained for a period of time linking customers to the two newly formed companies' respective web sites. DASI Solutions, L.L.C. can be contacted at 888-327-2974 or on the web at www.dasi-solutions.com. 3DVision Technologies Corp. can be contacted at 800-745-3136 or on the web at www.3dvision.com.

About Microsolid Solutions Inc.:

Founded in 1995, Microsolid Solutions assists companies in the implementation of new Windows-based CAD, CAE, and PDM technologies used in product development. Microsolid Solutions has been the number one SolidWorks reseller in the Great Lakes Region for three consecutive years. The company has received numerous awards for sales, training, and technical support within the engineering community.
